EXPERIENCE

WORD PUBLISHING | SOFTWARE ENGINEER

Nov 2021 – Dec 2022 | Navi Mumbai, IN

- Designed and developed a user-friendly and responsive customer relationship management (CRM) application using React.js, Javascript, HTML5, and CSS3, enhancing the company's internal operations and client interaction
- Conducted rigorous manual testing and debugging, identifying and resolving issues promptly to maintain a high level of software quality and minimize disruptions to daily operations.
- Actively participated in discussions with CRM users to gather feedback and requirements, leading to iterative improvements and new feature implementations.
